The Same Roots Help 4-H Grow...

4-H Ambassadors

- Senior 4-H Members promoting 4-H awareness and acting as resources for the 4-H community throughout the province.

Projects for 20-21 Year Olds

- Challenging project work and the opportunity to share experience and skills with younger members and the 4-H Community.

Plant a Seed...

"4-H has given me the ability and chance to develop personal skills and make life long friendships all the while having the pleasure of working with and watching the personal growth of BC's best youth, the 4-H members."

Glen Hersley, NanOOSE Bay,
BC 4-H Provincial Council

"The friendships, opportunities and experiences I have gained through the 4-H program have helped to make me a more self confident and well rounded individual. I am sure that the skills I've gained in 4-H will be a great asset in achieving my goals for the future."

Sarah van Heeswijk, Princeton
Former BC 4-H Ambassador

"Through the forty years that I have been connected with 4-H both in and out of the Ministry of Agriculture I think the greatest rewards have been to see how so many 4-H members and leaders go on to become prominent citizens in their field. 4-H never ceases to be a challenge and I have known and worked with so many wonderful people and hopefully have had some influence in their lives."
